CHARACTERISTICS

MATUR is a product specially designed to improve the quality parameters during the maturation stage:

ENHANCES THE COLOR

INCREASES THE SUGAR CONTENT

and during production:

IMPROVES THE SIZE

INCREASES THE WEIGHT

SPECIAL FOR FRUITS AND TABLE GRAPES

MATUR is a tool that increases the color on table grape varieties such as Crimson Seedless, Flame Seedless and Red Globe. They sometimes do not reach a sufficient color development, may be rejected or lose value. Factors that are influencing the intensity of the berries, peel color of the vines, such as the light intensity, ambient temperature and growth regulators.
